## Professional Experience

---

**Scotiabank Center, Halifax, Canada. - Cashier**

*January 2023 – Present*

- Delivered efficient customer service during high-demand events, ensuring smooth transactions and positive guest experiences.
- Managed complex cash and card transactions, reconciled tills, resolved concerns, and supported concession operations (cooking, warehouse, POS setup).
- Contributed to service improvements by assisting team coordination and optimizing workflows in fast-paced environments.

## Education

---

**Dalhousie University**

Candidate for Bachelor of Science in Applied Computer Science, Class of 2027

*Halifax, NS*

*January 2023 - Present*

## Projects

---

**Professional Stock Dashboard**

*August 2025*

- Designed and built a responsive stock dashboard with real-time TradingView chart integration.
- Implemented live market data for 500+ US and Canadian stocks with search and categorization features.
- Added dark/light theme support and mobile responsiveness for professional UI/UX.
- Developed monetization features, including Google AdSense integration and affiliate marketing sections (TradingView, Robinhood, Webull).
- Built watchlist functionality with export/import support for user customization.
- Integrated market indicators (S&P 500, VIX) for financial trend analysis.
- Added a live weather widget to display location-based conditions within the dashboard

## **Personal Portfolio Website**

*August 2025*

- Developed responsive portfolio website using HTML5, CSS3, and JavaScript with animated typing effects and modern design.
- Built interactive contact form with Formspree integration, form validation, and real-time user feedback notifications.
- Created engaging animations including custom mouse cursor, floating icons, smooth scrolling, and hover effects throughout the site.
- Added project timeline showcasing development work with GitHub links, descriptions, and mobile-responsive layout.
