

Harshil Lotwala

(647) 897-4634 — harshil.lotwala@dal.ca — Harshil-Lotwala — harshil-lotwala — Halifax, NS

Education

Dalhousie University (Sexton Scholar)

Jan 2023 – Present

Candidate for Bachelor of Science in Applied Computer Science, Class of 2027

Relevant Courses: Data Structures, Web Development, Database Systems, Mobile Computing, Usable Security and Privacy, User Experience (UX) Design, User Interface (UI) Design, User-Centered Design

Skills

Languages: Python, Java, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Flask, Expo

Databases: MySQL, SQLite, MongoDB, Firestore

Tools: Git, GitHub, Jira, VS Code, IntelliJ, Figma, Canva

APIs: REST APIs, PayPal SDK, Google Places API

Mobile Development: Android Studio, RecyclerView, Expo

UI/UX Design: UX, UI, User-Centered Design, Wireframing, Prototyping, Usability Testing, Interaction Design

Concepts: Data Structures & Algorithms, OOP, MVC Architecture, SDLC, Database Design, Unit Testing, Debugging, Agile Development, Responsive Design, Design Thinking, Information Architecture

Academic Projects

FocusTrail – Mobile Study Productivity App

- Building a mobile application that allows students to locate suitable study environments and monitor their study sessions
- Implemented location-based search using Google Places API for nearby libraries, cafés, and study spaces
- Developed session tracking features for study duration and focus rating insights
- Designed navigation and UI for streamlined study tracking workflow

AI Flashcard Generator — AI Learning Tool

- Developed a tool that generates flashcards from topics or uploaded notes
- Integrated LLM API to generate structured question–answer flashcards
- Processed user input and formatted AI outputs into usable flashcard sets
- Designed lightweight UI for quick study material generation

Job Marketplace Mobile Application — Android Studio

- Built mobile platform for posting and applying to jobs
- Integrated PayPal SDK for secure payments
- Implemented job filtering by salary, category, and experience
- Developed UI using RecyclerView and Android layouts
- Added automated testing using JUnit and Espresso

Degree Planner — Academic Planning Web Application

- Built React frontend for course planning interface
- Developed Flask backend for course data and logic
- Designed MySQL database for storing degree requirements
- Used Git for version control and collaboration

Geriatric Psychotropic Green Card — Drug Reference Application (NS Health)

- Contributed to development of digital drug reference tool
- Built frontend components using React
- Assisted backend development using Node.js
- Integrated MySQL queries for medical data retrieval

Personal Projects

Professional Stock Dashboard

- Built dashboard for monitoring stock market performance
- Integrated financial APIs for real-time market data
- Implemented watchlists and key indicators
- Added responsive design and theme switching

Personal Portfolio Website

- Developed responsive site using HTML, CSS, JavaScript
- Implemented contact form with validation and Formspree
- Added animations, custom cursor, and interactive UI elements
- Created project timeline with GitHub integration
